

Full Proposal Workshop Texas Sea Grant RFP FY 2020-2022

Goals of Full Proposal Workshop

- Help PIs develop competitive research proposals.
- Introduce PIs to the research-extension model and provide ideas for integration.
- Introduce PIs to Texas Sea Grant Extension Team.
- Work one-on-one with PIs to expand the outcomes, connect researchers with coastal communities and their needs, develop robust partnerships, and ultimately enrich the impacts and accomplishments of the research.

What does Texas Sea Grant want to Fund?

- Integrated research and extension projects that improve the understanding, wise use and stewardship of Texas' coastal and marine resources.
- Outcome-oriented research that spans broad areas of natural, physical, social, behavioral and economic sciences and engineering.
- Research that will generate substantial long-term impacts in Texas.
- Research aligned with Texas Sea Grant Strategic Plan 2018-2021.
- Research that addresses one of Texas Sea Grant's research priorities.
