Texas Sea Grant College Program
R. R. Stickney, Director

Contour interval one meter
EQUIDISTANT CYLINDRICAL PROJECTION
Note: The bathymetry is intended
to show seafloor topography only,
and is NOT TO BE USED FOR NAVIGATION

Bathymetry
Historic bathymetric (hydrographic) surveys conducted since 1933 by the
NOAA National Ocean Service/Coast Survey, available from the National
Geophysical Data Center. Surveys vary as to sounding density, accuracy of
navigation, accuracy of depth, zero datum, date of survey, and type of
instrumentation. Adjustments were made to reconcile diverse data sets.
