

Funded Research Projects				
1968 - 2024				
Funding Period	PI	Title	Institution/Affiliation	Amount
2024/2026	Daniel Coffey	Evaluation of shark deterrents to reduce depredation and bycatch rates in Texas and Gulf of Mexico commercial and recreational fisheries	Texas A&M University - Corpus Christi	\$399,975
2024/2026	Erin Easton	Optimizing aquaculture of black corals for restoration of damaged habitats in Gulf of Mexico	University of Texas Rio Grande Valley	\$399,439
2024/2026	Laura Mydlarz	Determining the nature and potential impact of the ongoing disease outbreak at Flower Garden Banks National Marine Sanctuary to inform reef management	University of Texas - Arlington	\$465,458
2024/2026	Jennifer Pollack	Measuring shell proteins to understand oyster growth potential and improve site selection for oyster farms in Texas	Texas A&M University - Corpus Christi	\$329,493
2024/2026	Abdullah Rahman	Remote Sensing-Based Mapping, Suitability Modeling, and Carbon Sequestration Analysis of Potential Oyster Mariculture Sites Along the Texas Coast	University of Texas Rio Grande Valley	\$394,003
2024/2026	Lauren Williams	Building Capacity for Commercial Oyster Industry Collaboration in Reef Restoration and Monitoring	The Nature Conservancy	\$117,420
2022/2024	Kunhee Choi	AI-Based Roadway Flooding Digital Twinning (AIR-FLOOD)	Texas A&M University	\$300,000
2022/2026	Kerri Crawford	Development and Deployment of Low-cost Microbial Amendments to Enhance Dune Restorations Along the Texas Gulf Coast	University of Houston	\$200,304
2022/2025	Hudson De Yoe	Facilitating Sustainable and Profitable Oyster Culture: Promoting Equity of Opportunities for Texas' Lower Laguna Madre	University of Texas - Rio Grande Valley	\$300,000
2022/2026	Jessica Dutton	Relationship between Mercury and Selenium Concentrations in Texas Offshore and Bay Fishes: Risk Assessment and Health Education	Texas State University	\$190,902
2022/2026	Jessica Eisma	Identification of Cost-effective Green Stormwater Infrastructure to Mitigate Flooding in Houston's Vulnerable Communities and Improve Galveston Bay Fisheries	University of Texas at Arlington	\$300,000
2022/2026	Christopher Hollenbeck	Fine-scale genetic monitoring of eastern oyster population structure for aquaculture, fisheries management, and restoration	Texas A&M University - Corpus Christi	\$258,496
2022/2025	David Portnoy	Using Population Genomics to Inform Stock Enhancement and Ecosystem-Based Management of Spotted Seatrout, <i>Cynoscion nebulosus</i>	Texas A&M University - Corpus Christi	\$216,992
2022/2024	Greg Stunz	Shining Light on Harvest and Effort for the Recreational Flounder Gig Fishery in Texas	Texas A&M University - Corpus Christi	\$296,913
2021/2024	Michael Wetz	Influence of Saharan dust deposition on the growth of harmful marine bacteria and algae in Texas coastal waters	Texas A&M University - Corpus Christi	\$136,550
2020/2024	Amir Behzadan	A Hybrid Decision Support System for Driving Resiliency in Texas Coastal Communities	Texas A&M University - TEES	\$299,995
2020/2024	Jens Figlus	Guaranteeing coastal wetland survival under sea level rise through nature-based beneficial-use dredged sediment placement: A Galveston Bay living laboratory	Texas A&M University	\$297,737
2020/2022	Joe Fox	Oyster Aquaculture Suitability Index and Production Potential Model for the Eastern Oyster (<i>Crassostrea virginica</i>) in Copano Bay, TX, USA	Texas A&M University - Corpus Christi	\$297,255
2020/2024	Nur Yazdani	Safety of Slab Home Elevations in Harvey-Affected Communities: Research, Extension, Training and Outreach	University of Texas at Arlington	\$299,372
2020/2024	Paul Montagna	Long-term Benthic Data Informs Adaptive Management of Freshwater Inflow to the Texas Coastal Bend	Texas A&M University - Corpus Christi	\$287,473

Funded Research Projects				
1968 - 2024				
Funding Period	PI	Title	Institution/Affiliation	Amount
2018/2020	Ali Mostafavi	Resilient adaptation of interdependent built, ecological, and governance systems to sea-level rise impacts in Texas coastal communities	Texas A&M University	\$208,372
2018/2024	Zhanfei Liu	Influence of floods and droughts on particulate organic matter quality in a subtropical estuary, Texas	University of Texas Marine Science Institute	\$299,993
2018/2020	Anna Armitage	The effects of shifting coastal wetland plant communities on the food webs that support coastal living resources	Texas A&M Galveston	\$298,689
2018/2020	Jennifer Pollack	Evaluating the relative habitat value of intertidal and subtidal oyster reefs to improve restoration methods	Texas A&M University - Corpus Christi	\$224,499
2018/2020	John Scarpa	Development of in situ oyster setting for stock enhancement and restoration purposes in Texas	Texas A&M University - Corpus Christi	\$279,686
2018/2020	Scott Socolofsky	Predicting salinity and temperature dynamics in Copano Bay, Texas	Texas A&M University	\$298,110
2018/2020	Shannon Van Zandt	Green infrastructure plans for flood and storm water hazards reduction in the Texas coastal region	Texas A&M University	\$113,699
2016/2018	Christopher Gabler	Testing macroclimate models of coastal wetland plant communities	University of Houston	\$199,896
2016/2018	Diego Figueroa	The South Texas Banks ecosystem: oceanography, biodiversity and genetics	University of Texas - Rio Grande Valley	\$179,027
2016/2018	Kerri Crawford	Determining the suitability of soil microbial amendments to enhance ecological restoration of coastal Texas sand dunes	University of Houston	\$158,771
2016/2018	Kirby Goidel	Perceptions of community resilience in Texas shoreline counties	Texas A&M University	\$197,245
2016/2018	Kuang-An Chang	Study of wetland erosion due to storms through combined field, laboratory, and numerical investigations	Texas A&M University	\$200,000
2016/2018	Lisa Campbell	A new early warning tool to mitigate harmful algal blooms	Texas A&M University	\$194,879
2016/2018	Luis Hurtado	Conservation genomics of the critically endangered Kemp's ridley sea turtle (<i>Lepidochelys kempii</i>)	Texas A&M University	\$200,000
2016/2018	Zhanfei Liu	Bioavailability and chemical characterization of dissolved organic nitrogen in South Texas rivers	University of Texas Marine Science Institute	\$197,078
2014/2016	Dorina Murgulet	Evaluating Groundwater/Surface-Water Inflow and Nutrient Transport to Texas Coastal Embayments	Texas A&M University - Corpus Christi	\$217,189
2014/2016	Gregory Stunz	Why are Black Drum starving in Baffin Bay? An ecosystem-based approach to develop community resilience and sustainable fisheries in a hypersaline estuary	Texas A&M University - Corpus Christi	\$129,557
2014/2016	Jens Figlus	If we lose Folletts Island, we lose coastal communities and Christmas Bay: A geological framework and numerical model study of the sustainability of Folletts Island	Texas A&M Galveston	\$261,793
2014/2016	Luis Hurtado	Assessment of Population Genetic Differentiation of the Blue Crab (<i>Callinectes sapidus</i>) in the Gulf of Mexico using Next Generation Sequencing Technologies	Texas A&M University	\$292,874
2014/2016	Masami Fujiwara	Economic Valuation of Brown and White Shrimps as Forage Species in the Coastal Areas of Texas	Texas A&M University	\$219,816
2014/2016	Michael Wetz	Identification of organic matter sources contributing to hypoxia formation in two eutrophic South Texas estuaries: relationships to watershed land use practices	Texas A&M University - Corpus Christi	\$274,990
2014/2016	Steven Pennings	Mangroves are invading Texas salt marshes: what are the consequences	University of Houston	\$273,314
2012/2014	Bryan Brooks	Determining Pharmaceutical Loadings to Select Texas Coastal Systems and Associated Risks to Aquatic Life	Baylor University	\$294,735

Funded Research Projects				
1968 - 2024				
Funding Period	PI	Title	Institution/Affiliation	Amount
2012/2014	Chris Houser	Perception of the rip current hazard on Galveston Island and Padre Island	Texas A&M University	\$137,125
2012/2014	Fouad Jaber	Modeling Low Impact Development for Optimal Performance in Texas Coastal Zones	Texas A&M University	\$182,430
2012/2014	Jay Rooker	Movement and population connectivity of fishes across estuarine seascapes	Texas A&M Galveston	\$207,012
2012/2014	Masami Fujiwara	Investigation of short-term fluctuation in shrimp abundance in the Gulf of Mexico	Texas A&M University	\$152,000
2012/2014	Paul Zimba	The Toxin's) of Texas Brown Tide Organism <i>Aureoumbra lagunensis</i> , and its Impacts on Shellfish	Texas A&M University - Corpus Christi	\$166,045
2012/2014	Scott Socolofsky	Fish larvae recruitment to Texas Bays through Aransas Pass	Texas A&M University	\$188,533
2012/2014	Steve Pennings	Mangroves invading Texas salt marshes: does it matter?	University of Houston	\$290,875
2010/2012	Andre Landry	Post-Hurricane Ike Recovery of Upper Texas Coast Beaches and Their Role in Sea Turtle Recovery	Texas A&M Galveston	\$163,900
2010/2012	Benjamin Walther	Freshwater residence and habitat requirements of southern flounder determined by otolith microchemistry	University of Texas Marine Science Institute	\$122,388
2010/2012	Daniel Thornton	Evaluation of LISST instruments to monitor for harmful algal blooms (HABs) in Texas coastal waters	Texas A&M University	\$49,360
2010/2012	David Hicks	An experimental test of the effects of beach raking on macroinvertebrate communities of Texas beaches	University of Texas - Brownsville	\$70,730
2010/2012	Delbert Smee	Marine Education: Teaching High School Students the Scientific Method through Involvement in an Ongoing Field Experiment	Texas A&M University - Corpus Christi	\$93,180
2010/2012	George Guillen	Population Status and Demographics of the Texas Diamondback Terrapin (<i>Malaclemys terrapin littoralis</i>)	University of Houston - Clear Lake	\$55,585
2010/2012	Jennifer Irish	Wave Hydrodynamics in Segmented Wetlands with Application to Hurricane Damage Reduction and Wetlands Management and Preservation	Texas A&M University	\$100,000
2010/2012	Jennifer Irish (Regional)	A parameterized climate change projection model for hurricane flooding, wave action, economic damages and population dynamics	Texas A&M University	\$300,000
2010/2012	John Gold	Genetic Effective Size in Hatchery-raised Spotted Seatrout, <i>Cynoscion nebulosus</i> , Released for Stock Enhancement in Texas Bays and Estuaries	Texas A&M University	\$16,570
2010/2012	Lee Fuiman	Promoting larval survival through broodstock diet: Implications for fish stock enhancement	University of Texas Marine Science Institute	\$171,531
2010/2012	Lisa Campbell	Role of microzooplankton in coastal ecosystems: viewing windows of opportunity	Texas A&M University	\$159,860
2010/2012	Steven DiMarco	Investigating the Processes that Affect Texas Coastal Hypoxia	Texas A&M University	\$95,150
2010/2012	Timothy Dellapenna	Geological Controls on Submarine Groundwater discharge into an upper bay estuary-Copano Bay	Texas A&M Galveston	\$266,898
2008/2010	Antonietta Quigg	Influence of nutrient and sediment load on our ability to define beneficial flows for Galveston bay	Texas A&M Galveston	\$236,928
2008/2010	Deana Erdner	Genetic analysis of nitrogen assimilation in the Texas brown tide <i>Aureoumbra lagunensis</i>	University of Texas Marine Science Institute	\$165,375
2008/2010	Delbert Gatlin	Utilization of Seafood Processing Wastes in Aquaculture through Integrated Nutritional and Food Manufacturing Technologies	Texas A&M University	\$163,793
2008/2010	Jae Young Ko	A comparative study of market and non-market valuations for selected ecosystem services of Galveston Bay	Texas A&M Galveston	\$99,974
2008/2010	Jennifer Irish	Quantification of Hurricane Flooding Reduction by Vegetation along the Texas Coast	Texas A&M University	\$202,647

Funded Research Projects				
1968 - 2024				
Funding Period	PI	Title	Institution/Affiliation	Amount
2008/2010	John Gold	Genetic Markers and their assay for critical studies of spotted Seatrout (<i>cynoscion nebulosus</i>) in Texas bays	Texas A&M University	\$93,608
2008/2010	Patrick Larkin	Mapping genetic structure in the seagrass <i>Halodule wrightii</i> (shoalgrass) along the Texas Gulf Coast	Texas A&M University - Corpus Christi	\$92,173
2008/2010	Samuel Brody	A Coastal Communities Planning Atlas for Decision Makers and Local Residents: Phase II	Texas A&M University	\$193,848
2008/2010	Scott Socolofsky	Field and Numerical Investigations of Tidal Vortices for Estuary Exchange Flows through Inlets on the Texas Coast	Texas A&M University	\$193,674
2008/2010	Troy Holcombe	Making Bathymetry of TX-LA Coastal and Continental Shelf/Slope areas compatible with Geographic Information Systems	Texas A&M University	\$14,605
2008/2010	Tzachi Samocha	Viral-pathogen-free <i>Farfantpenaeus duorarum</i> broodstock production for sustainable live bait shrimp farming in Texas	Texas A&M University	\$159,097
2006/2008	Addison Lawrence	Dietary nutrient requirement determination and feed development for sea urchins as biomedical, ecotoxicological and educational models	Texas A&M University - Corpus Christi	\$151,683
2006/2008	Andre Landry	An assessment of Sea Turtle assemblages in Texas Estuaries	Texas A&M Galveston	\$163,870
2006/2008	Gregory Stunz	Recruitment, spatial distribution and fine-scale movement patterns of Red Drum (<i>Sciaenops ocellatus</i>) through major and shallow passes in Texas	Texas A&M University - Corpus Christi	\$150,148
2006/2008	Peter Santschi	Factors regulating microbial degradation of dioxins in estuarine sediments: Houston Ship Cannel and Galveston Bay, Texas	Texas A&M University	\$250,505
2006/2008	Peter Thomas	Evaluation of Atlantic Croaker indicators of ecosystem integrity	University of Texas Marine Science Institute	\$147,338
2006/2008	Samuel Brody	Developing a coastal communities planning atlas as an educational tool for decision makers and local residents	Texas A&M University	\$255,516
2006/2008	Scott Socolofsky	Laboratory studies of mixing processes in estuaries and coastal flows on the Texas coast	Texas A&M University	\$203,567
2006/2008	Tom Ravens	Design of erosion resistant marshes	Texas A&M Galveston	\$147,453
2004/2006	Ayal Anis	Physical Control of Nutrient Fluxes in Galveston Bay	Texas A&M University	\$209,119
2004/2006	Daniel Roelke	The influence of reduced freshwater inflows on primary productivity and standing phytoplankton biomass in the San Antonio and Aransas Bay system: Use of high resolution spatial mapping	Texas A&M University	\$220,121
2004/2006	Henrietta Edmonds	Quantifying groundwater inputs to South Texas Bays: a multiple tracer approach	University of Texas Marine Science Institute	\$129,215
2004/2006	Hongxing Liu	Quantitative analysis of short-term seasonal shoreline variations in Texas gulf Coast using high-resolution satellite imagery and GIS technique	Texas A&M University	\$175,912
2004/2006	Scott Holt	The Role of Larval Supply and Post-Settlement Processes in Recruitment Variability of Southern Flounder (<i>Paralichthys lithostigma</i>) Populations in Texas	University of Texas Marine Science Institute	\$103,043
2004/2006	Scott Socolofsky	Laboratory studies of exchange processes through tidal inlets on the Texas coast	Texas A&M University	\$137,734
2004/2006	Tom Ravens	Design of ecologically rich and sustainable beneficial use area	Texas A&M Galveston	\$101,058
2004/2006	Troy Holcombe	New Bathymetry of the Texas-Louisiana Continental Shelf: Education, Research, Engineering, Decision-making	Texas A&M University	\$235,331
2004/2006	William Neill	Effects of Environmental Variation and Feed Energy-Density on Juvenile Red Drum Growth	Texas A&M University	\$154,927

Funded Research Projects				
1968 - 2024				
Funding Period	PI	Title	Institution/Affiliation	Amount
2001/2004	Edward Buskey	The use of RNA:DNA ratios to assess the health of the planktonic food web in Texas coastal bays	University of Texas Marine Science Institute	\$88,569
2001/2004	Hudson Deyoe	Innovative tools for seagrass monitoring	University of Texas - Pan America	\$210,338
2001/2004	Jaime Alvarado-Bremer	Identifying young commercial shrimp by combining developmental morphology and Molecular genetics	Texas A&M Galveston	\$63,391
2001/2004	Jay Rooker	Origins and mixing rates of red drum stock: assessing the contribution of different nursery grounds using biogeochemical fingerprints	Texas A&M Galveston	\$246,126
2001/2004	John Gold	Development and Application of Hypervariable DNA Marker (Microsatellites) to Basic and Applied Research Problems in Red Drum (<i>Sciaenops ocellatus</i>)	Texas A&M University	\$329,224
2001/2004	John McEachran	Survey and inventory of fishes of the Gulf of Mexico	Texas A&M University	\$20,196
2001/2004	Lee Fuiman	Contaminants in Texas Bays: Impairment of Red Drum survival skills and the consequences for their population	University of Texas Marine Science Institute	\$144,413
2001/2004	Niall Slowey	Corals at the Flower Garden Banks: Monitors of Environmental Change	Texas A&M University	\$183,197
2001/2004	Peter Santschi	Role of natural organic matter in governing the bioavailability of potentially toxic metals to estuarine bivalves	Texas A&M Galveston	\$241,859
2001/2004	Peter Thomas	Assessment of feminization in male croaker and the presence of estrogenic contaminants in estuarine environments	University of Texas Marine Science Institute	\$231,067
2001/2004	Randall Davis	Stock Assessment, Movement Patterns and Habitat of Sperm Whales in the North-central Gulf of Mexico	Texas A&M Galveston	\$261,043
2001/2004	Tom Ravens	Sediment transport modeling and assessment of erosion control techniques on Galveston Island	Texas A&M Galveston	\$188,608
2001/2004	Worth Nowlin	Processes responsible for hypoxia in the Gulf of Mexico; A re-evaluation with additional data and a fresh perspective	Texas A&M University	\$83,207
1998/2001	Andre Landry	Recruitment and Population Status of Kemp's Ridley Sea Turtles in Nearshore Gulf Waters	Texas A&M Galveston	\$240,487
1998/2001	D. Allen Davis	Nutritional strategies for the reduction of mariculture waste production	University of Texas Marine Science Institute	\$230,374
1998/2001	David Busbee	A Reporter Gene System for Detecting and Investigating Marine Pollutants with Endocrine Disruptive Activities	Texas A&M University	\$24,515
1998/2001	David Owens	Endangered Marine Turtles: Symptoms of an Education Necessity	Texas A&M University	\$59,920
1998/2001	Delbert Gatlin	Nutritional and Environmental Manipulations to Reduce Wastes in Mariculture	Texas A&M University	\$206,862
1998/2001	Gary Gill	The Importance of Episodic Events on Turbidity and the Mobility of Heavy Metals in Texas Estuaries	Texas A&M Galveston	\$190,585
1998/2001	George Jackson	Simulation of larval transport from the Texas coastal ocean to a bay	Texas A&M University	\$168,405
1998/2001	James Heilman	Primary and secondary productivity in coastal wetlands: alteration by freshwater and nutrients	Texas A&M University	\$19,575
1998/2001	Joan Holt	The Influence of Salinity on Reproduction, Egg and Larval Development in Spotted Seatrout (<i>Cynoscion nebulosus</i>)	University of Texas Marine Science Institute	\$117,531
1998/2001	Leonard DiMichele	A Rapid Quantitative Method for the Measurement of Growth Rate in Marine Ecosystems	Texas A&M University	\$26,628
1998/2001	Peter Santschi	Bioavailability of colloid-associated metals to estuarine bivalves	Texas A&M Galveston	\$237,538
1998/2001	Scott Holt	The Role of Water-Level Fluctuations in Recruitment of Red Drum Larvae: Stable Isotopes as Tracers	University of Texas Marine Science Institute	\$226,020

Funded Research Projects				
1968 - 2024				
Funding Period	PI	Title	Institution/Affiliation	Amount
1998/2001	Violetta Lien	Field testing, revision, and dissemination of marine education resource unit for middle schools	University of Texas	\$137,567
1997/1998	Andre M. Landry, Jr.	Population status and ecology of Kemp's Ridley sea turtle in a Gulf of Mexico index habitat	Texas A&M Galveston	\$33,093
1997/1998	C.S. Giam	A new approach to monitoring exposure of aquatic organisms to organic pollutants	Texas A&M Galveston	\$59,630
1997/1998	David W. Owens	Marine turtles: Symptoms of an education necessity	Texas A&M University	\$56,347
1997/1998	Dean A. Stockwell	Development and use of an immuno-flourescent probe for the Texas brown tide alga	University of Texas Marine Science Institute	\$35,721
1997/1998	Donald E. Harper, Jr.	The effect of prey densities and nursery habitat quality on penaeid shrimp recruitment success	Texas A&M Galveston	\$28,356
1997/1998	G. Joan Holt	Hatchery technology for the utilization of artificial diets in intensive culture of fish larvae	University of Texas Marine Science Institute	\$29,682
1997/1998	George A. Jackson	Simulation of larval transport from Texas coastal ocean to bay	Texas A&M University	\$63,028
1997/1998	James L. Heilman	Tower based conditional sampling to monitor the impact of freshwater management on coastal wetlands	Texas A&M University	\$62,688
1997/1998	James L. Way	Antagonism of sulfide intoxication with marine enzymes in cell carriers	Texas A&M University	\$35,000
1997/1998	John W. Tunnell, Jr.	Physiological tolerances and nonchemical control strategies for the recently introduced macrofouling brown mussel	Texas A&M University - Corpus Christi	\$16,275
1997/1998	Leonard DiMichele	A rapid quantitative method for the measurement of growth rate in marine ecosystems	Texas A&M University	\$37,909
1997/1998	Lonnie L. Jones	Impacts of recreational and commercial fishing and coastal resource based tourism on regional and state economics	Texas A&M University	\$70,137
1997/1998	Paul A. Montagna	A new molecular and statistical approach to measure anthropogenic impacts	University of Texas Marine Science Institute	\$58,906
1997/1998	Philip G. Lee	Development of computer controlled, integrated dephosphatization/denitrification filtration system	University of Texas Medical Branch	\$69,947
1997/1998	Phillip S. Levin	Recruitment and post-recruitment mortality on Red drum in Galveston Bay: What nursery habitats are critical	Texas A&M Galveston	\$63,283
1997/1998	Scott A. Holt	Recruitment success of estuarine dependent marine fishes: Growth and natural mortality of larval and juvenile recruits	University of Texas Marine Science Institute	\$29,537
1997/1998	Violetta F. Lien	Development of middle school marine education resource manual	University of Texas - San Antonio	\$36,479
1995/1997	Andre M. Landry, Jr.	Population status and ecology of Kemp's Ridley sea turtle in a Gulf of Mexico index habitat	Texas A&M Galveston	\$62,454
1995/1997	David H. Bade	Vegetative enhancement of coastal dredge disposal sites for increased forage production and amended soil salinity	Texas A&M University	\$31,463
1995/1997	David W. Owens	The reproductive and migratory biology of sea turtles in the Gulf of Mexico	Texas A&M University	\$58,264
1995/1997	Donald E. Harper, Jr.	The effect of prey densities and nursery habitat quality on penaeid shrimp recruitment success	Texas A&M Galveston	\$46,146
1995/1997	G. Joan Holt	Microbial hatchery technology for the utilization of artificial diets in intensive culture of fish larvae	University of Texas Marine Science Institute	\$58,056
1995/1997	G. Joan Holt	The influence of salinity of reproduction and larval development in Spotted seatrout (<i>Cynoscion nebulosus</i>)	University of Texas Marine Science Institute	\$45,000
1995/1997	George H. Ward	Hydrodynamic and circulation data set for Matagorda Bay	University of Texas	\$48,401

Funded Research Projects				
1968 - 2024				
Funding Period	PI	Title	Institution/Affiliation	Amount
1995/1997	Graham A.J. Worthy	Bottlenose dolphins as environmental monitors, Phase II	Texas A&M Galveston	\$62,947
1995/1997	James L. Way	Antagonism of sulfide intoxication with marine enzymes in cell carriers	Texas A&M University	\$55,065
1995/1997	Joe M. Fox	Shrimp nitrogen and phosphorus excretion and its mitigation in aquaculture receiving streams	Texas A&M University	\$51,057

Funding Period	PI	Title	Institution/Affiliation	Amount
1974/1975	John B. Herbich	Undergraduate and graduate ocean engineering programs	Texas A&M University	\$12,100
1974/1975	John B. Herbich	Offshore pipelines	Texas A&M University	\$40,000
1974/1975	John L. Seymour	Organizational structures for coastal zone	Texas A&M University	\$27,300
1974/1975	Joseph L. Melnick	Quantitive assessment of viral hazards in the Galveston Bay system	Baylor College of Medicine	\$30,000
1974/1975	Mark E. Chittenden	Population characteristics of mackerel in the western Gulf	Texas A&M University	\$50,000
1974/1975	Richard E. Withers, Jr.	Environmental management of the ship channel harbor complex	Texas A&M University	\$20,000
1974/1975	Richard L. Noble	Teaching and course development in fisheries	Texas A&M University	\$12,500
1974/1975	Roger D. Anderson	Student research initiation	Texas A&M University	\$9,000
1974/1975	Roger D. Anderson	Educational improvement	Texas A&M University	\$8,000
1974/1975	Roy W. Hann, Jr.	Technical aspects of ocean dumping of industrial wastes	Texas A&M University	\$25,900
1974/1975	Samuel M. Gillespie	Development of finfish marketing systems	Texas A&M University	\$26,400
1974/1975	Tom D. Reynolds	Water quality in the coastal canal communities	Texas A&M University	\$20,700
1974/1975	Wade L. Griffin	Production costs and returns for the Texas shrimp industry	Texas A&M University	\$20,500
1974/1975	Wallis Clark, Jr.	Penaeid reproduction	University of Houston	\$13,300
1974/1975	Wayne M. Ahr	Upper Texas coast shoreline processes	Texas A&M University	\$24,000
1974/1975	Wesley P. James	Environmental considerations of the operation and maintenance of the Texas Gulf Intracoastal Waterway	Texas A&M University	\$20,750
1974/1975	William P. Fife	Maximum safe depth for saturation diving on compressed air	Texas A&M University	\$20,000
1973/1974	Anthony F. Gangi	Coastal seabed sediment map - Galveston to Freeport	Texas A&M University	
1973/1974	Billie I. Ingram	Economic impact of recreation & tourism	Texas A&M University	\$21,000
1973/1974	Bryant F. Cobb III	Factors affecting at-sea storage and subsequent utilization of fishery products	Texas A&M University	\$18,000
1973/1974	Bryant F. Cobb III	Effects of packaging on fresh fish	Texas A&M University	\$12,500
1973/1974	Calvin E. Woods	Environmental quality management in international coastal zone	Texas A&M University	\$13,000
1973/1974	Carl Vanderzant	Fishery product processing - sanitation, quality control, new product development	Texas A&M University	\$18,000
1973/1974	Carl Vanderzant	Sanitary quality and shelf life of pond reared shrimp	Texas A&M University	\$11,500
1973/1974	Charles P. Turco	Metal and bacterial concentration in Sabine Lake	Lamar University	\$16,000
1973/1974	Charles P. Turco	Recreational land and facilities If Sabine estuaries	Lamar University	\$9,000
1973/1974	Charlie G. Coble	Engineering design of mariculture production units	Texas A&M University	\$6,000
1973/1974	Christopher C. Mathewson	Silting mechanisms: Intercoastal waterway, Kennedy county area	Texas A&M University	\$13,500
1973/1974	Clinton A. Phillips	Development of M.S. curriculum in marine resource management	Texas A&M University	\$8,000
1973/1974	Daniel M. Bragg	Fresh seafood distribution and handling techniques	Texas A&M University	\$18,800
1973/1974	David R. Basco	Hydraulic characteristics of diked dredge spoil areas	Texas A&M University	\$20,000
1973/1974	Donald H. Lewis	Development and presentation of courses related to fish health	Texas A&M University	\$4,500
1973/1974	Donald H. Lewis	Microbial diseases of marine organisms	Texas A&M University	\$21,455
1973/1974	Edward D. Middleton	Ocean and marine technology	Brazosport College	\$12,000
1973/1974	Edward L. Beckman	Decompression tables for post saturation diving	Texas A&M Galveston	\$19,000
1973/1974	Hoy A. Richards	Transportation of waterborne materials: Economic considerations	Texas A&M University	\$20,000
1973/1974	J. Frank Slowey	Removal, treatment and disposal of sediments containing industrial wastes	Texas A&M University	\$15,000
1973/1974	Jack C. Parker	Shrimp pond culture	Texas A&M University	\$93,500
1973/1974	James Teer	Evaluation of potential fisheries of under-utilized finfish species	Texas A&M University	\$39,000
1973/1974	John E. Ball	Management of tank washings	Texas A&M University	\$14,000
1973/1974	John P. Nichols	Market evaluation of selected finfish species	Texas A&M University	\$14,000
1973/1974	Joseph L. Melnick	Quantitive estuarine & shellfish virus enumeration	Baylor College of Medicine	\$30,000

Funded Research Projects				
1968 - 2024				
Funding Period	PI	Title	Institution/Affiliation	Amount
1973/1974	Leonard Dale Webb	Application of polymers in the marine environment	Texas A&M University	\$14,000
1973/1974	Norman C. Whitehorn	Marine industry analyses	Texas A&M University	\$21,300
1973/1974	Richard A Geyer	Naturally occurring hydrocarbons	Texas A&M University	\$17,000
1973/1974	Richard E. Withers, Jr.	Environmental effects of deepwater terminal related industries	Texas A&M University	\$15,000
1973/1974	Richard F. Dominguez	Offshore pipelines	Texas A&M University	\$20,500
1973/1974	Richard L. Noble	Teaching & course development in fisheries	Texas A&M University	\$14,000
1973/1974	Robert E. Schiller, Jr.	Undergraduate and graduate ocean engineering programs	Texas A&M University	\$2,000
1973/1974	Robert E. Shiller	Environmental simulation and modification	Texas A&M University	\$20,000
1973/1974	Roy W. Hann, Jr.	Enhancement of Texas estuaries by aeration	Texas A&M University	\$16,000
1973/1974	Roy W. Hann, Jr.	Control of hazardous materials in the coastal zone	Texas A&M University	\$15,000
1973/1974	Russell L. Stogsdill	Port signage system	Texas A&M University	\$18,300
1973/1974	Sammy R. Ray	Oyster mariculture on the upper Texas coast	Texas A&M Galveston	\$16,000
1973/1974	Sterling K. Johnson	Diagnosis and treatment of shrimp diseases in ponds	Texas A&M University	\$8,000
1973/1974	Wayne E. Etter	Financing private recreation in the coastal zone	Texas A&M University	\$11,600
1973/1974	Wayne M. Ahr	Matagorda Bay area: Coastal processes & shoreline stability	Texas A&M University	\$30,000
1973/1974	Willis E. Pequegnat	Development of ocean sources of prostaglandins	Texas A&M University	
1972/1973	Albert Schaffer	Technical information and policy on coastal resources	Texas A&M University	\$10,461
1972/1973	Bryant F. Cobb III	Factors affecting vessel storage and subsequent shelf life of trawl fish	Texas A&M University	\$22,555
1972/1973	Carl Vanderzant	Fishery product processing - sanitation, quality control, new product development	Texas A&M University	\$17,819
1972/1973	Carl Vanderzant	Sanitary quality and shelf life of pond reared shrimp	Texas A&M University	\$11,114
1972/1973	Charles P. Turco	Sabine coastal laboratory	Lamar University	\$35,000
1972/1973	Clinton A. Phillips	Development of M.S. curriculum in marine resource management	Texas A&M University	\$91,000
1972/1973	David R. Basco	A study of dredge spoil dispersion in Galveston Bay	Texas A&M University	\$14,265
1972/1973	David V. Aldrich	Temperature tolerance and acclimation of brown and white shrimp (<i>Penaeus aztecus</i> and <i>P. setiferus</i>)	Texas A&M University	\$17,849
1972/1973	David V. Aldrich	Distribution of some estuarine shellfish in experimental gradients of temperature and salinity	Texas A&M University	\$14,985
1972/1973	Donald H. Lewis	Microbial Human health hazards in Texas trawl fish	Texas A&M University	\$22,156
1972/1973	Donald H. Lewis	Microbial diseases of pond reared shrimp	Texas A&M University	\$21,455
1972/1973	Edward L. Beckman	Decompression tables for post saturation diving	Texas A&M Galveston	\$44,667
1972/1973	Ernest L. Kistler	Development of coastal and ocean engineering programs in Galveston	Texas A&M Galveston	\$18,374
1972/1973	Frank P. Buffa	The development of a conceptual framework for the analysis of resource management problems	Texas A&M University	\$17,000
1972/1973	George W. Klontz	Graduate courses in aquatic animal medicine	Texas A&M University	\$9,992
1972/1973	George W. Klontz	Intrinsic causes of fish kills in biologically and chemically contaminated coastal waters	Texas A&M University	\$14,200
1972/1973	Hoy A. Richards	Transportation of waterborne hazardous materials in the west Gulf coastal regions of Texas: Economic consideration of the risk involved	Texas A&M University	\$20,000
1972/1973	J. Frank Slowey	Removal, treatment and disposal of sediments containing industrial wastes	Texas A&M University	\$15,000
1972/1973	Jack C. Parker	Pond shrimp culture	Texas A&M University	\$95,171
1972/1973	James M. McCloy	Atlas of Texas shrimp fishing	Texas A&M Galveston	\$12,800
1972/1973	James R. Bradley	Offshore port study	Texas A&M University	\$25,000
1972/1973	James Teer	Teaching & course development in fisheries	Texas A&M University	\$12,000
1972/1973	James Teer	Estimation of Texas trawl fish resource	Texas A&M University	\$39,896
1972/1973	Jerald W. Caruthers	Shallow water acoustics	Texas A&M University	\$20,772
1972/1973	John B Herbich	Offshore pipelines	Texas A&M University	\$26,000
1972/1973	John B. Herbich	Undergraduate curriculum and course development in ocean engineering	Texas A&M University	\$15,500
1972/1973	John Miloy	Gulf intracoastal waterway of Texas	Texas A&M University	\$18,000
1972/1973	John P. Nichols	Selected market evaluation for Texas trawl fish	Texas A&M University	\$17,238
1972/1973	Joseph L. Melnick	Assessment of potential public health hazards in Texas coastal waters	Baylor College of Medicine	\$35,944

Funded Research Projects				
1968 - 2024				
Funding Period	PI	Title	Institution/Affiliation	Amount
1972/1973	Norman C. Whitehorn	Marine industry analyses	Texas A&M University	\$15,000
1972/1973	Richard A. Geyer	A study of natural hydrocarbon seepage in the Gulf of Mexico	Texas A&M University	\$18,750
1972/1973	Robert E. Shiller	Environmental simulation and modification	Texas A&M University	\$30,000
1972/1973	Robert M. Sorenson	A study of the coastline change processes of sediment transport and deposition at the Brazos River delta	Texas A&M University	\$20,000
1972/1973	Roger D. Anderson	Cruise support for field studies, education and training	Texas A&M University	\$36,000
1972/1973	Roger D. Anderson	Educational improvement	Texas A&M University	\$12,400
